

# Friday Sermon

September 29, 2017

Brief Summary

- Huzur (aba) spoke about the importance of Salat, and how it leads to success and salvation.
- Salat is never forgiven, even for the Prophets of God. Once a group of people came to the Holy Prophet (saw) to excuse themselves from daily prayer. The Holy Prophet (saw) denied their request saying that a religion without practical actions equals to nothing.
- Salat is such that it protects man from every evil act, but such prayer cannot be achieved without Allah's help. For this to happen, you need to pray and demonstrate extreme heartfelt pain and restlessness in front of God. Therefore, none of your days should be empty of prayers
- In the Holy Quran, Allah says that those who struggle towards us, we will surely guide them towards our ways.
- The Holy Prophet (sa) has said that the delight of my eyes lies in prayer. May Allah enable us to offer and safeguard our daily prayers.
