

Friday Sermon

April 21st, 2017

Brief Summary

- Accepting the Messiah of this age is a blessing of Allah upon us. After accepting him, we should try to increase in our faith and openly give the message of Islam.
- Though most are active, some people think that we shouldn't mention Islam too much because of the conditions of Muslims today.
- Huzoor (aba) said that we should become even bolder at this time because this condition of Muslims is according to the prophecy of the Holy Prophet (saw). At this time, the Messiah and Mahdi was to be sent to revive true Islam. Therefore, there shouldn't be any inferiority complex.
- Some people have become too involved in worldliness in Western countries. We show good morals in society, but we are lacking in worship.
- People in the West generally are threatened by Islam and are even afraid to come to our functions. Therefore, our responsibility grows at this time.
