

Salat Bootcamp Instructions for Regional Atfal Rallies 2019

- All Atfal have been given targets in the Atfal Rally Study Guide in terms of memorization of Salat & Translation based on their age group.
- At the beginning of the Salaat Boot Camp, make an initial evaluation of each Tifl to see where they stand with respect to their target. Note the results of the initial evaluation on the “Salat Bootcamp Syllabus” document of each Tifl (that document stays with the Tifl).
- Then divide Atfal into smaller groups based on areas they need to learn/improve upon. Have Khuddam & Parents help Atfal memorize and practice in smaller groups and individual level. Give this at least 3-4 hours of time with appropriate break(s).
- After giving them time/helping them to improve, conduct the the Final Evaluation/Exam. The Atfal should keep the “Salat Bootcamp Syllabus” with the initial and Final Evaluation scores noted on it and should take it home, so that they can learn the remaining at home. Please note the final percentage score on the results sheet provided and send that list at the end of the rally to taleem@atfalusa.org (preferably digital copy).
- Plan on having copies of the “Salat Bootcamp Syllabus” printed on thicker cardstock type paper so Atfal can use it over the couple of days to improve their learning/standings.
- Atfal who know the syllabus 100%, can help other/younger Atfal to learn.
