Ahmadiyya USA

WHY IS  
PROTECTING  
ENVIRONMENT  
IMPORTANT?

DISCUSS!

# Why is protecting environment so important?

Save Lives

Protect Animals

Create Jobs

Prevent Natural Disasters

Conserve Resources

Health benefits

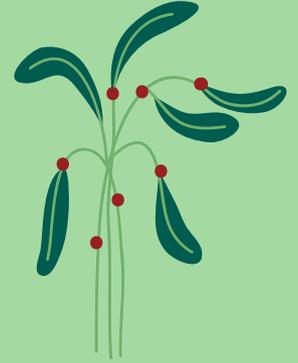

Scientists estimate that we humans share the planet with another 8.7 million different beings. In the world, currently 1.2 million species have been cataloged, which means more than 7 million remain unknown to science

Be mindful of our resources  
**Share Earth  
with others**

How can we  
protect our  
environment?

DISCUSS!

# Quran on Wasting

Hazrat Khalifatul Masih II writes in the tafseer of this verse that one should not over-eat.

This also includes to not waste food and water at all.

O children of Adam! look to your adornment at every *time and* place of worship, and eat and drink but exceed not the bounds; surely, He does not love those who exceed the bounds.

Quran 7:32

# Hadith #1 on Planting

WE NEED  
MORE  
TREES

"There is none amongst the Muslims who plants a tree or sows seeds, and then a bird, or a person or an animal eats from it, but is regarded as a charitable gift for him."

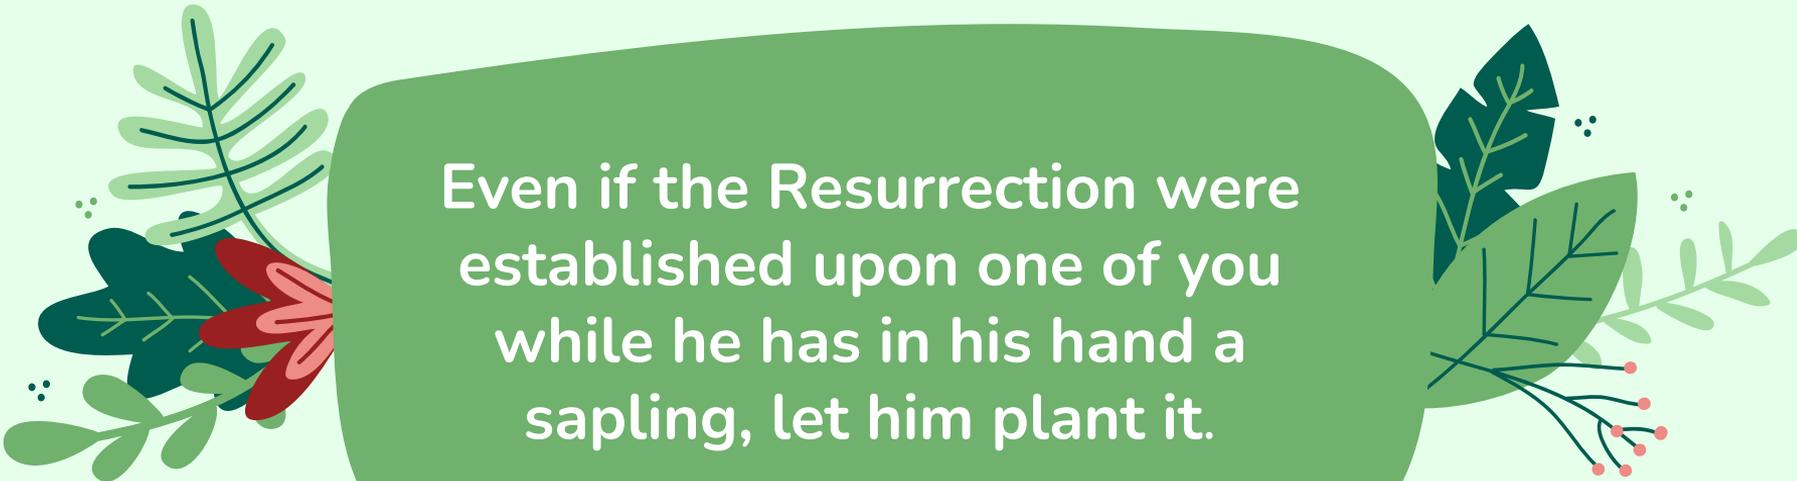

Sahih Bukhari 2320

# Hadith #2

This saying of Muhammad (S.A.W) tells us the importance of planting trees.

A decorative arrangement of various green leaves and a red flower, framing a central green speech bubble.

Even if the Resurrection were established upon one of you while he has in his hand a sapling, let him plant it.

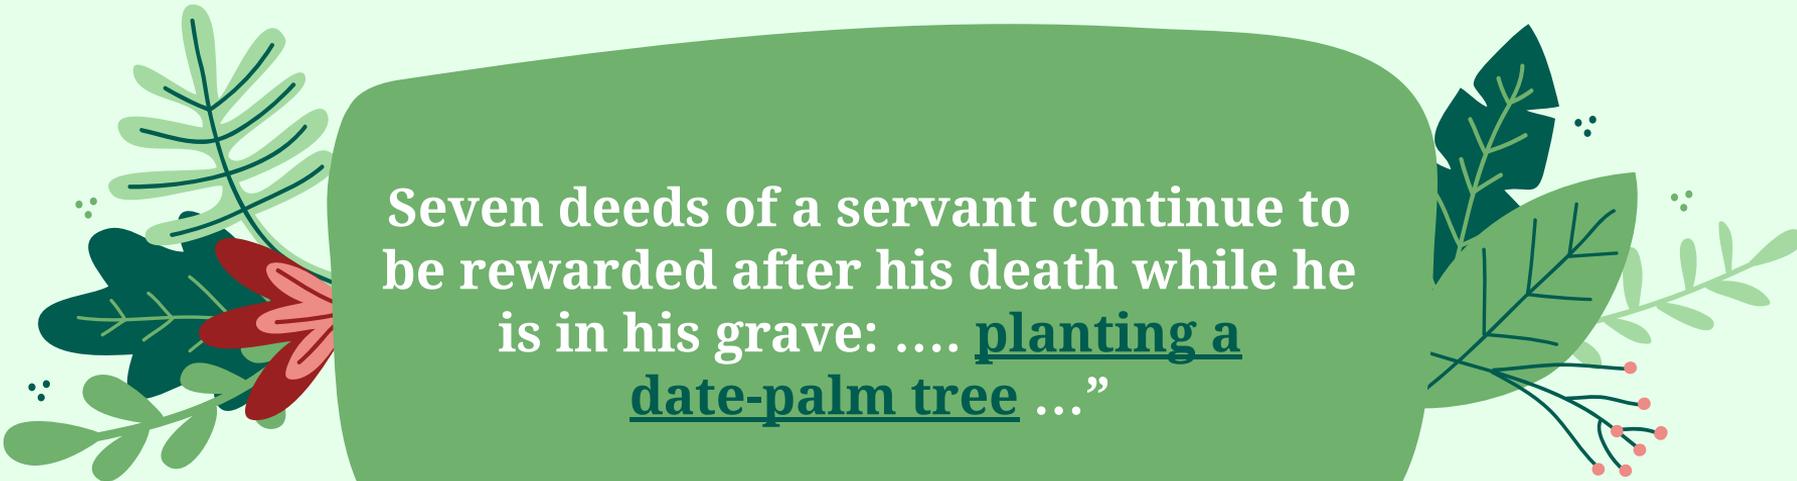

Musnad Ahmad 12902

# Hadith #3 - Planting is a charity

Everytime someone eats of the tree, sits under its shade, a bird makes its nest e.t.c,  
you get the blessings!

A decorative arrangement of various green leaves and a red flower-like shape surrounds the central text box.

Seven deeds of a servant continue to be rewarded after his death while he is in his grave: .... planting a date-palm tree ...”

Musnad Ahmad 12902

Recycle

Recycling

**Recycling** is the process of converting recyclable materials into new ones and objects. It helps to reduce the pollution caused by waste

# Recycling

Plastic

Bottle  
Container

Glass

Bottle  
Glass jar  
Jam glass

Paper

Cardboard  
Magazine  
Newspaper  
Office paper  
Tetra Pak Carton

Metal

Can  
Aluminum

The following items should be recycled.

**Do not throw in the trash!**

What is even  
better than  
Recycling?

## REUSE

- Use reusable metal/plastic bottles for water.
  - No more recyclable bottles!
- Wash spoons/forks after every use.
  - Do not throw!

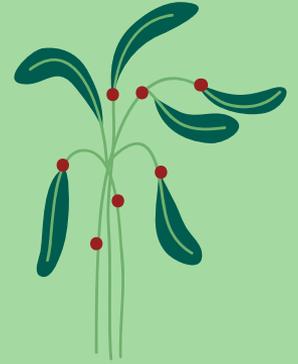

# Reusing

Reusing and giving a new purpose to old materials is one of the best ways to help the environment

What else can  
we reuse in our  
daily lives?

**DISCUSS!**

The world produces about 300 million tons of plastic waste each year. Only 9% of the plastic waste generated is recycled

**Reuse!**

# Protecting Activities

Small actions can help protect the environment from being damaged. We should take care of our planet as it's our home

Help to protect!

# Protecting Activities

Think about what we could do  
together to protect the  
environment?

Let's think together!

# Tree Planting Marathon!

Do this activity

1. Protect environment
2. Get free blessings with one time effort!

Majlis Atfalul
